

Why Go Solar?

Financial Savings

Who doesn't want to save money? With utility rates increasing by as much as 6% a year, now is the time to go solar.

Energy Independence

No more utility rate increases, no more spikes in electricity rate charges during peak loads. Take back control. Enjoy the independence of owning your own electric power source.

True Investment

How about an annual return of 12% or more in savings you can count on? Plus, up to \$50k increase to your property value!

30% Tax Credit

Save about one-third of the cost with Federal Incentives good through Dec. 31, 2016.

Our Economy

Support creation of great, skilled American jobs in a high growth industry. Your investment in solar energy supports American workers who live in our cities and towns.

The Future

Investing in solar energy reduces your carbon footprint which reduces global climate change and directly promotes the use of sustainable energy with no emissions or harmful side effects.

Moreno Makes It Easy

Our commitment to quality, professionalism and customer satisfaction is unmatched. Check out our YELP.com reviews and see for yourself.

About Our Company

Established in 1975

During our 40 years in business, we've worked hard to become your Premier Roofing Contractor in the Monterey Bay Area. We've earned 5 star reviews on YELP.com and now we've brought our 5 star service to the solar industry.

Roofing & Solar Go Together

One of the main advantages to hiring a Roofing Contractor to install your solar system is the roofing aspect of the job. When your system is installed, numerous penetrations are drilled into your roof which provide a base for the solar panels.

Now ask yourself this: would you rather trust a solar company employee to know where to drill and how to seal them properly? Or, a Licensed Roofing Contractor with over 40 years experience?
